EndNote bibliography, output from EndNote without edits.

Note: In the EndNote record, I had
- Changed full journal titles to abbreviations
- Changed capitalization to sentence case for article titles that were in title case

EndNote bibliography with editing changes highlighted.

Notes about changes: double-spacing, yellow highlights show punctuation changes (period to colon or period to semi-colon); red highlights shows items that should be removed; green highlights show additions (added country of publication to book, added some punctuation).
