Tips when Using EndNote Basic

EndNote bibliography, output from EndNote without edits.

Note: In the EndNote record, I had:
• Used the “Standard” Reference Type
• Added a comma after the full organization name in the Institution field
• Capitalized the title in sentence case (first word and proper nouns are capitalized)
• Added the year the standard was produced
• Added the Standard # to the Page Numbers field

EndNote bibliography with editing changes highlighted.

Notes about changes: double-spacing, yellow highlights show changes (periods to semicolons); red highlights shows words that should be removed.
